

## EV Charging: Utilization Proposal

**WORKPLACE IN MOTION**  
POWERED BY COMPASS GROUP

# EV Charger: General Information

Blink is the manufacturer of the charging stations installed for use at 2300 & 2400 Yorkmont Rd.

There are 2 dual charging stations in the parking garage:

- 1 station on the 1<sup>st</sup> level (CC1 side)
- 1 station on the 2<sup>nd</sup> level (CC2 side)

The charging stations are available:

- 24 hours a day
- to all registered Compass associate/drivers

Blink chargers require the use of a mobile app to utilize the stations & manage accounts.

Stations are safe to use, regardless of typical weather conditions. Units will not be accessible if conditions are unsafe.

# EV Charger: Compass Group Specifics

Charging sessions are free for Compass Group Associates & their registered vehicles

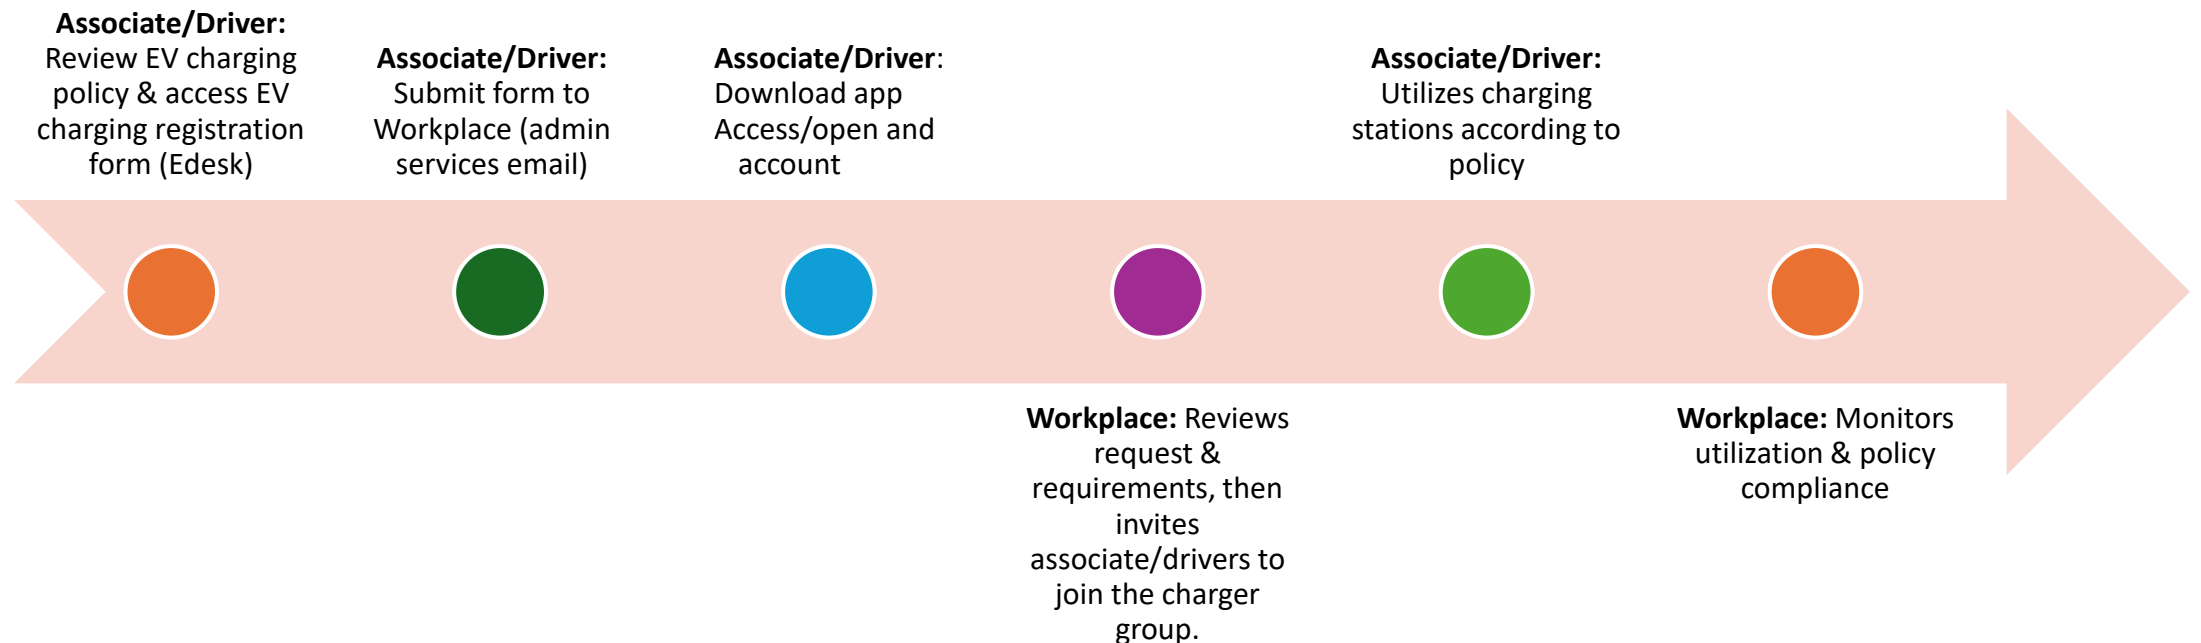

Associates & their vehicles must be registered before using the charging stations (see process details).  
Guests are not allowed access to charging stations due to the registration requirements.

Registration requires policy acknowledgement, waiver agreement (similar to the fitness center) & credit card information (similar to the Thrive app)

Access to chargers is first come / first serve.  
A waitlist feature is available via the mobile app.

Charging sessions may/may not fully charge your vehicle. -- Individual sessions are limited to 1-2 hours.  
-- Associate/drivers should only occupy the charger for one session each day

# EV Charger: Registration Process

# EV Charger: FAQ's

## Registration

Do I have to register to use the charging stations?

- Yes. Users/Drivers must have an account with Blink to use the charging stations.

How do I register to use the EV charging stations?

- Registration forms are available on Edesk and should be returned to the Workplace team at [administrativeservices@compass-usa.com](mailto:administrativeservices@compass-usa.com).

How many cars can I register? TBD

## Charging Instructions

Will the 'plug' fit my car?

- Yes. The charge connections are universal.

How long can I charge my car?

- Each charging session is limited to 1-2 hours, or less if the vehicle reaches full charge.

How many times can I charge my car each day?

- Vehicles (or Associate/Drivers?) can only be charged once a day.

How long will it take to charge my car?

- This varies by make/manufacture. Therefore, the charging time per session will not exceed 2 hours. The purpose of these chargers is convenience & emergency.

What if there are no charging spaces available?

- A waitlist feature is available using the mobile app and will alert Associate/Drivers when a charging space is available.

## Penalties

Can my registration be revoked?

- Registrations are reviewed annually for appropriateness.
- Registrations can be revoked if Associate/Drivers are not compliant with EV charging policy.

Are there penalties for leaving your vehicle connected beyond the charging limit?

- You will receive notifications via the Blink app regarding your charging status and time to move your vehicle. Workplace will monitor the status and send reminders, as well. Our expectation is that you acknowledge and address the notifications in a timely fashion, but if not, a parking fee can be assessed.

## Account management

Why do I need to include my credit card?

- Applying a credit card to your account is a standard for the Blink system. There are ways to charge for service, however Compass will provide this amenity at no cost to associates and their registered vehicles.

How many cars can I have on my account? TBD

# EV Charger: Etiquette

- Be responsive to notifications from Blink on the status of your charging session.
  - Move your vehicle quickly when charge session is complete, or station is available.
- Use care when using the charging equipment.
- Park cleanly with a single parking space as not to obstruct access to other charging spaces.
- Report any issues or trouble to Workplace/Admin Services.
